FUTURA® 718

The best band saw blade for nickel-base alloys

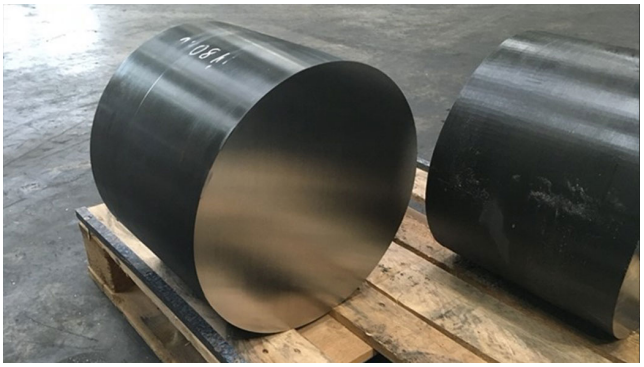

Product level 3

Trapezoid tooth

Solid materials

Band width 41 x 1.3 - 80 x 1.6mm
Band width 1-5/8 x 0.050 - 3-1/8 x 0.063 Inch

Product Information

The FUTURA® 718 carbide band saw blade offers excellent initial cutting behavior and very clean and straight cutting surfaces.

FUTURA® 718 — The best band saw blade for nickel base alloys

Nickel-based alloys are indispensable, especially in the chemical industry, in engine construction, and in power generation, because they can withstand high mechanical, chemical, and thermal loads. Processing in production is correspondingly demanding.

WIKUS addresses the extremely difficult-to-cut nickel-based alloys with the FUTURA® 718 carbide band saw blade, which precisely cuts solid materials made of these superalloys.

Application

- Solid material of steels, which are difficult to cut
- Nickel-based alloys
- Heat-resistant, high temperature-resistant and duplex steels

Advantages

- Specially developed for nickel-based and similar superalloys
- Optimum chip division for tough and high-strength materials
- Reduced cutting forces for long blade-life and straight cuts
- Very good and constant cutting rate in spite of difficult cutting conditions
- Excellent initial cutting behavior results in low material loss

- Reduced finishing due to high cut surface quality

Features

- Tooth edges made of optimum carbide for high-strength tough materials
- Perfectly ground trapezoid teeth with optimum geometry
- Carrier band with special shaping for elimination of work hardening due to special mode of operation

Technical Data

Dimensions		Tooth pitch in tpi			
Width x thickness					
mm	Inch	2 - 3	1.4 - 2	1 - 1.4	0.85 - 1.15
41 x 1.30	1-5/8 x 0.050	T	T		
54 x 1.30	2-1/8 x 0.050	T	T		
54 x 1.60	2-1/8 x 0.063	T	T		
67 x 1.60	2-5/8 x 0.063	T	T	T	T
80 x 1.60	3-1/8 x 0.063			T	
Contact length	**[mm]** **[Inch]**	150-300 5.9-11.8	290-550 11.4-21.6	500-1000 19.7-39.4	700-1200 27.6-47.2

T = Trapezoid tooth

Materials Overview

- Nickel-based alloys
- Duplex and heat-resistant steels
